

MULTI PROFILE

Solid anchoring

Suitable for all types of edging materials

INFO

- + Optimal anchoring and stability through alternate soil displacement
- + The cavities in the profiles provide counterforce
- + Alternating profile structure results in better vertical guidance
- + Manufactured from a recycled plastic mix that combines high impact strength and rigidity
- + No danger of milling out due to patented wall structure
- + The screw passes through 4 screwdriving surfaces
- + Universal anchoring suitable for all types of borders

TECHNICAL SPECIFICATIONS

- + MATERIAL: Recycled plastic mix
- + COLOUR: Black
- + HEIGHT: 38 cm or 58 cm
