

CREAfix

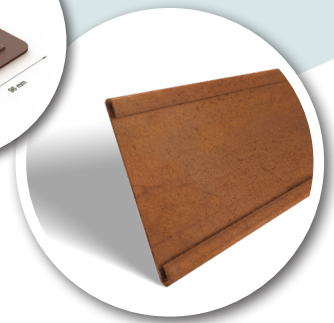

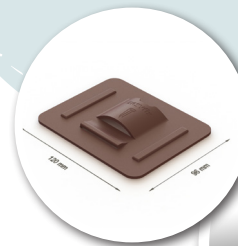

Quick and easy to install garden border

in high-quality Corten steel for all your garden projects.

Info

- ✓ **CREAfix** can be used in straight lines as well as in **slightly sloping shapes and right angles**
- ✓ Random anchoring according to your design
- ✓ Curved top edge for **optimum safety in use**
- ✓ Long anchoring pins provide **improved stability**
- ✓ **Limited visibility** of fixing material after installation
- ✓ **Cor-Ten forms** a stable rust-like appearance when exposed to the elements. In simple terms, the steel is allowed to rust and **this oxidised layer forms a protective coating** that dramatically slows the rate of future corrosion.
